

The Ultimate in Warmth and Comfort!

Aqua-Hot™

By Vehicle Systems, Inc.
Motor Coach Heating Specialists

Be at home on the road and experience the ultimate in motorcoach heating! The Aqua-Hot motorcoach heating system combines a continuous supply of domestic hot water, interior heating and engine preheating into one space-saving device.

Designed for easy operation, the Aqua-Hot's unique, diesel-fired heating system will keep you warm and comfortable no matter where your travels take you.

- **Continuous Supply of Domestic Hot Water**

Domestic water is heated on demand as it is being used; no need for a separate water heater.

- **Quiet Operation**

Stainless steel enclosure is fully insulated for retaining heat and soundproofing. Low-velocity heat exchangers provide quiet interior heating.

- **Maintain Comfort Zones Separately**

Independently control interior temperatures in three separate heating areas.

- **Maximize Valuable Space**

Combines domestic hot water and interior heating in one unit. Compact size frees up storage space.

- **Uniform Heating**

Draft-free heating; no hot and cold air pockets.

- **Safety Features**

Automatic shut-down in case of low voltage or an overheat situation. Burns low-volatility diesel fuel.

- **Cool Weather Engine Preheating**

Warms engine for easy starting.

- **Electric Heating**

AC powered heating element can provide heat and domestic hot water during low demand periods.

- **Unique/Efficient Design**

Utilizes on-board diesel fuel; no need for propane to supply heat or hot water. Low diesel fuel usage and low electrical DC power consumption.

- **Versatile Components**

Used with low power consumption, fan-driven heat exchangers.

- **Minimum Maintenance**

Fuel-filter and fuel-nozzle.

- **Two Year Warranty**

- **Need More Information?**
